NOVA BALLAST
TYPE-M

NOVA
LESS IS **MORE**

The NOVA Ballast System TYPE M is a versatile **modular system** designed to address a diverse array of flat roof applications. With its streamlined design and minimal components, our system offers an extensive range of possibilities, providing flexibility and adaptability to meet various project needs. The system is capable of accomodating large PV modules. Furthermore, our commitment to consistency and compatibility is evident as the same components are utilized across both south-facing and east/west-facing systems, ensuring seamless integration and maximum efficiency for your solar projects.

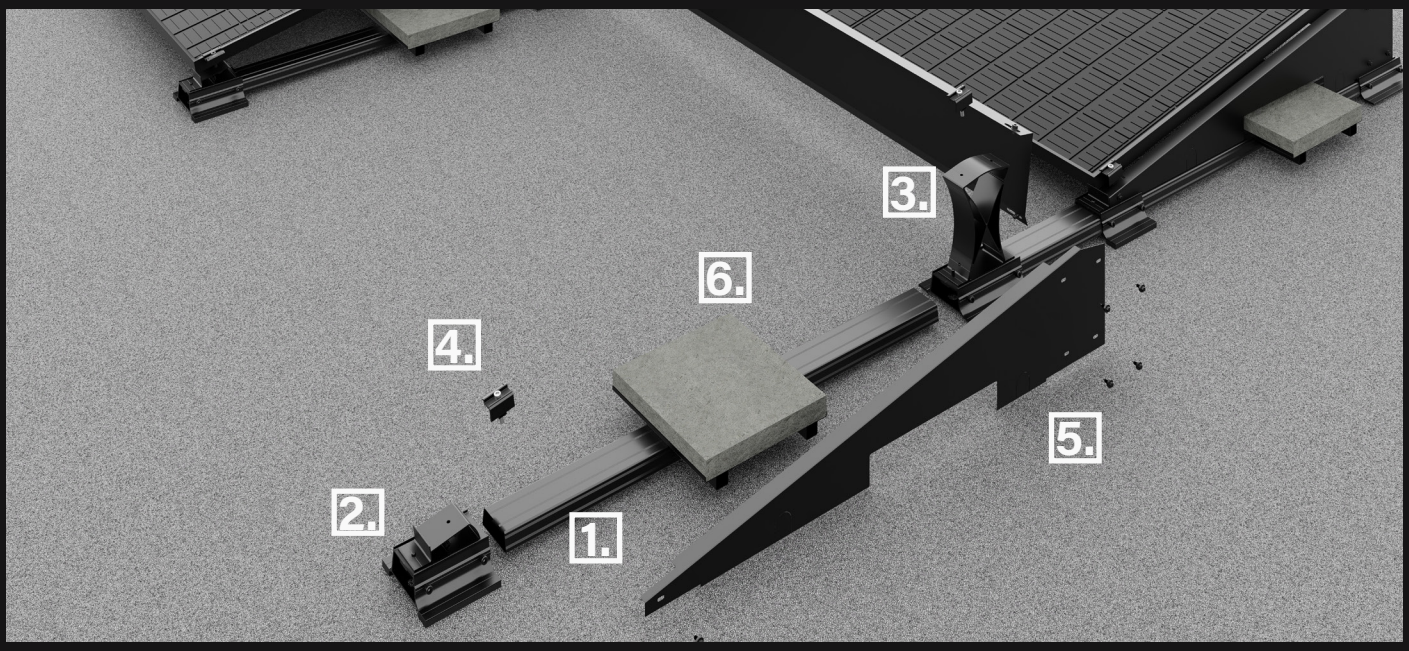

- Module sizes up to 2190 x 1150mm
- Preassembled components
- Suitable for all weather conditions
- Compact storage design
- Modular Design - Flexibility in layout
- Wind tunnel tested

LESS INSTALLATION TIME
MORE BENEFITS.

25 YEAR LIMITED WARRANTY

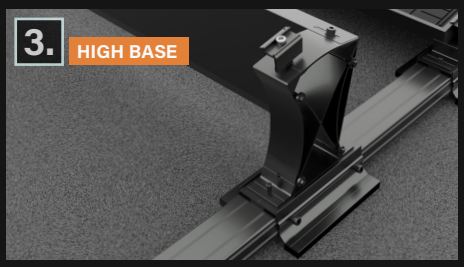

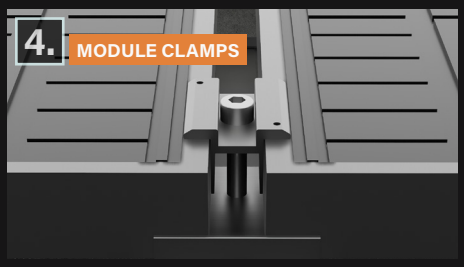

Our compact modular railing system effortlessly slides into the High and Low Base, making it incredibly easy to handle and assemble. No Rail Joiners required.

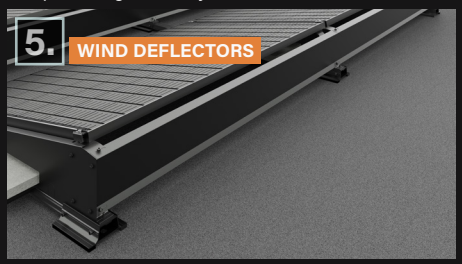

The front and rear leg design is engineered for optimal strength and cost-effectiveness. Ultilizing triangular geometry to maximize structural integrity without compromising efficiency.

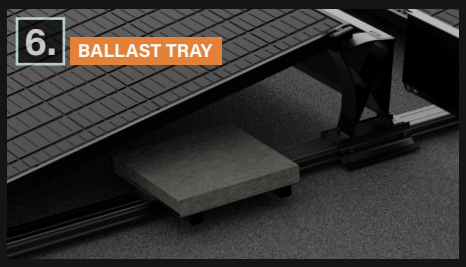

The rear leg component offers versatility by seamlessly adapting to both north-south and east-west configurations. Comes preassembled.

Features a consistent clamp design, using the same module clamps as our other rooftop mounting solutions.

Equipped with rear and side wind deflectors, the side panel conveniently accommodates cable and ballast outlets, simplifying installation and management.

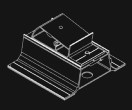

Enhance stability with our versatile ballast tray & support, designed for compatibility with various ballast types. The unique structure ensures increased stability across the entire array.

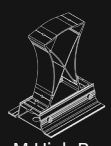

SYSTEM COMPONENTS

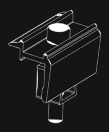

Type M Profile
920-112210 (1190mm)
920-112211 (200mm)
920-112212 (550mm)
920-112210-B (1190mm)
920-112211-B (200mm)
920-112212-B (550mm)

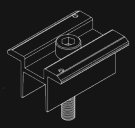

Type M Low Base 10°
920-112320
920-112320-B

Type M High Base 10°
920-112310
920-112310-B

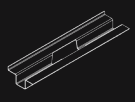

Type M End Clamp
30-40mm
920-111490-B

Type M Mid Clamp
30-40mm
920-111480-B

Type C Ballast Tray
930-112611

Type M Ballast Rail Support
920-112620

Type M Wind Deflector
920-112510 + 920-112520 (L+R)
920-112510-B + 920-112520-B (L+R)

Type M Rear Wind Deflector
920-112551
920-112551-B

*Article # with '-B' refers to Black Finish
